

WÜRTH Franz

(1879 -) ¹

Altlinster

Biography

Franz WÜRTH was born in 1879 in Altlinster.

His father Johann WÜRTH (*Schmied*) was born in 1830 in Junglinster. He was married to Magdalena DICKES.

In the tradition of the family, going back to at least 1800, Franz also became a *Schmied* in Altlinster, probably in his father's atelier. So did his older brother Mathias (b. 1870).

Franz and Mathias built and patented an accessory for a plough in 1903. They gave it the name "Mignon".

It is not known when and where Franz died. He probably never married.
