

# WÜRTH Mathias

(1870 - ) <sup>1</sup>

Altlinster

## Biography

Mathias WÜRTH was born in 1870 in Altlinster.

His father Johann WÜRTH (*Schmied*) was born in 1830 in Junglinster. He was married to Magdalena DICKES.

In the tradition of the family, going back at least to 1800, Mathias also became a *Schmied* in Altlinster, probably in his father's atelier. So did his younger brother Franz (b. 1879).

Mathias and Franz built and patented an accessory for a plough in 1903. They gave it the name "Mignon".

It is not known when and where Mathias died. He probably never married.
